

Energy Improvements in Rural Areas: Resilience and Prosperity in Rural Wisconsin

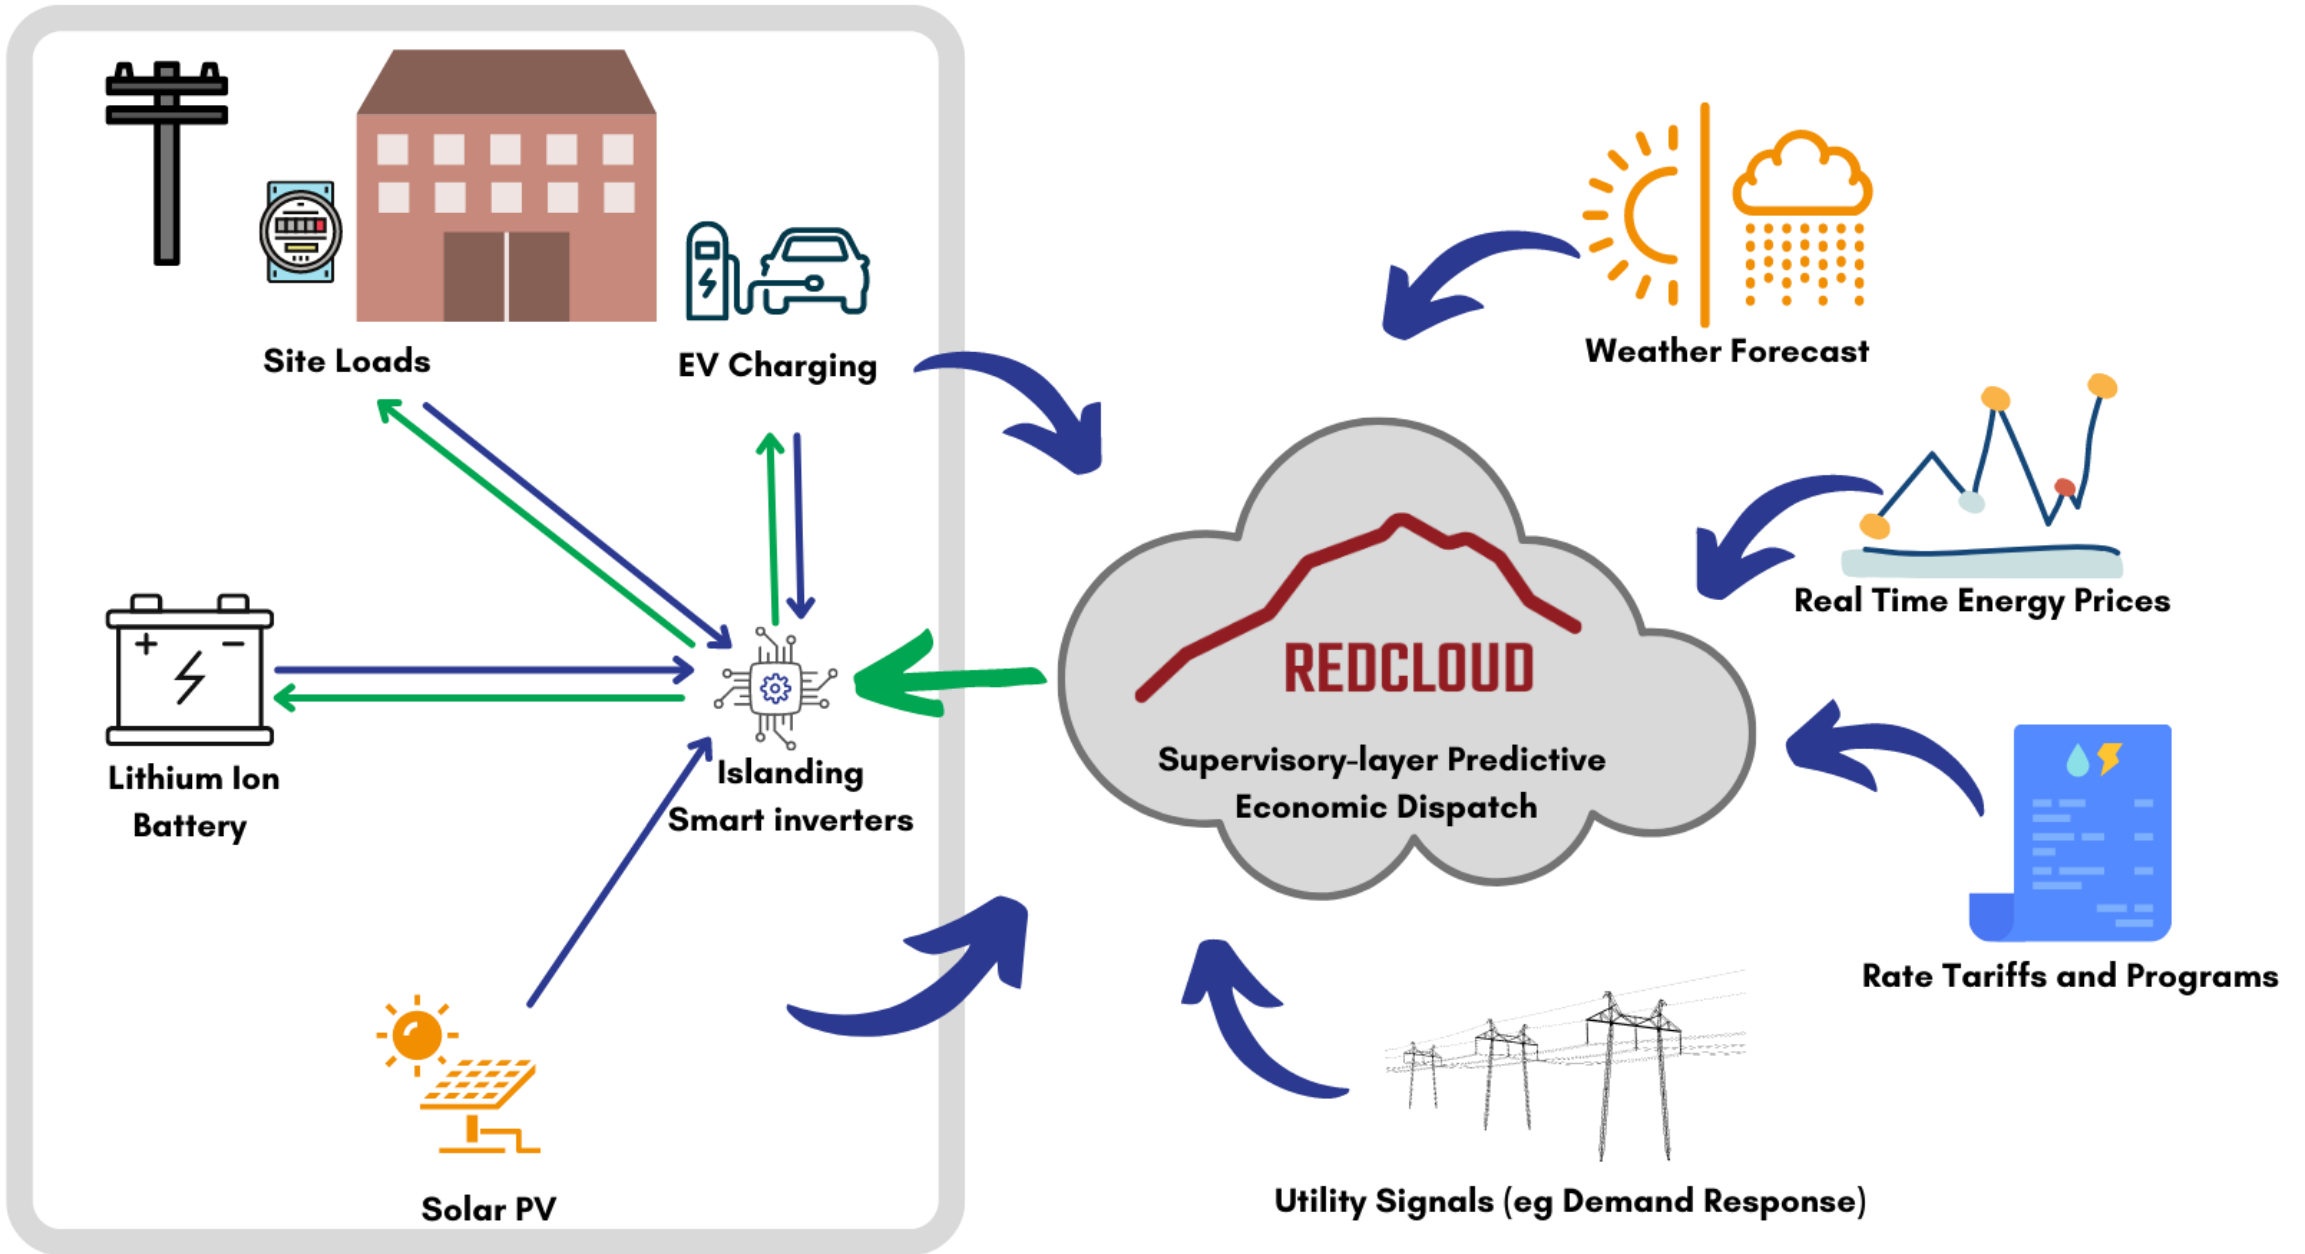

US Department of Energy – Energy Improvements in Rural Areas

About the Office of Clean Energy Demonstrations

The U.S. Department of Energy's Office of Clean Energy Demonstrations (OCED) was established to accelerate clean energy technologies and fill a critical innovation gap on the path to achieving our nation's climate goals of net zero emissions by 2050. OCED's mission is to deliver clean energy demonstration projects at scale in partnership with the private sector to accelerate deployment, market adoption, and the equitable transition to a decarbonized energy system. Visit energy.gov/oced to learn more.
